

Bostitch® Introduces An Innovative Framing System. In Fact, It's Two Tools In One.

The N88RH-2MCN Framing System. You Can't Afford Not To Have One.

We challenged our product engineers to come up with a truly innovative idea, one that would cause the industry to sit up and take notice. They embraced the challenge. Introducing the **N88RH-2MCN Framing System** from **Bostitch®**. They took our N88RH Framing Nailer and transformed it into a multi-tasking framing system with the patented push button quick-change trip system at the heart of the transformation. In the time it takes to say **N88RH- 2MCN Framing System** you've changed from the factory installed Metal Connector Trip* to a Standard Framing Trip.

Here's how it works.

With a mere push of our patented push button control you can replace the Metal Connector Trip* with the Standard Trip in just seconds or vice versa.

It's Simple. Just push the release button and slide one tip out the other in. It's a fast, easy and productive Framing System.

Two Tools In One. One Great System.

Compare the price of the **N88RH-2MCN Framing System** with having to purchase two single-tasking nailers.

We Think You'll Agree It's One Great Value Too.

*The Metal Connector Trip is available separately. So you can convert your current N88RH into a complete framing system.

The following Bostitch® Premium Quality Metal Connector Fasteners are available for The N88RH-2MCN Framing System. We also offer a complete line of Standard framing nails.

RH-MC13115	1-5/8 X .131	5000
